The list of products & services is very important to choose thoughtfully as people will find your services or products with these keywords. If you have a web site we will list it and provide an active link to it. If you provide a complete address we will include map based directions from the website visitor’s entered location. If you provide a banner message we will display it in scrolling fashion to attract attention. When a site visitor chooses to look at your business, a web page will appear displaying whatever information you have supplied. In addition, you may supply a picture or graphic for inclusion on the page.
